***Owner and Agent will come to agreement weekly as to what horse "Needs" or does not need, in order to expedite process effectively. For example, some week's horse may haul for 2-3 runs, and some weeks not haul and stay home for weekly tune ups.**

***If in the event the owner prefers a horse be entered or hauled to a certain race that Lauren does not plan to attend and/or does not plan to haul this horse to, the owner will be responsible for fuel, time, and entry fees for that event.**

***Schedules are done weekly. If owner prefers to know the agenda set for their horse that week, they can request via email or text for it.**

***Weekly logs are kept on all horses on the ranch, including diet, changes, problems, issues, advances, and workouts. Owner can request log at anytime via email to see what activity or issues have been going on with their horse.**

***We do not believe in training or seasoning a horse that is believed to be injured, or medically not 100% sound, therefore if Lauren believes horse needs attention medically, that will be notified to owner and scheduled before any other physical activity.**

***We believe in fixing and tuning horses from the inside out, so throughout process there will be recommendations of supplements to better the horse's ability to do its job. It is the owners choice whether to take the advice and pay for supplements or to decline.**

***All showings on consignment horses will be done privately by Lauren Riley acting as agent of horse.**

***All prices will be agreed to with Owner and Agent BEFORE any verbal or written agreement will be made with buyer.**
